Ventilation
Second floor

Construction

Ventilation
Third floor

Construction

Ventilation
Parking

14 free parking spaces and 24 buildings
Materials Identification

PVC windows and doors framing

Brick

Aluminium sheet

Siding
<table>
<thead>
<tr>
<th>Materials</th>
<th>Benefits</th>
</tr>
</thead>
</table>
| Aluminium windows and doors framing | - Durability  
- Energy efficiency  
- Eco-balance |
| Aluminium sheet           | - Durability (high corrosion resistance)  
- Versatility  
- High strength to weight ratio  
- Air tightness  
- Easier to work with (versatility and light weight) |
| Siding                    | - Tensile strength  
- Electrical and heat resistance  
- Sound absorption |
| Brick                     | - Long duration  
- Fireproof  
- Stand up for inclement weather |
